

Invacare® | **Orion™**

Stable, Trusty, Durable: The *Invacare Orion*

With a focus on safety and reliability, the **Orion** is equipped with multiple features to ensure a safe and easy ride. Imagine being able to undertake long journeys in complete safety and comfort. Whether you enjoy a daily trip to the shops or love to travel further afield, the **Invacare Orion** gives you freedom of independence. Combining ergonomics with style, **Orion** is the obvious choice for a relaxing, reliable drive.

Yes, you can.®

Go further for longer

Whatever the terrain, you'll enjoy a controlled and sturdy drive. Let the powerful motor, fully suspended chassis and big wheels take you smoothly over obstacles or uneven ground. The large batteries ensure plenty of capacity to enjoy excursions away from home. A unique lighting system includes an easily visible DUAL-bulb headlight, automatic indicators and an integrated heavy-duty brake light for safety.

Trustworthy and dependable

The **Orion** is equipped with an electronic speed reduction feature that automatically reduces speed round bends, ensuring safe, comfortable manoeuvres at all times. Intelligent electronics offer a visual and audio warning when the batteries need charging. A two-step disengaging lever prevents the scooter from free-wheeling if knocked out of drive mode. The **Orion** has undergone extensive tests in the German independent TÜV test laboratory and complies with the Medical Device Standards for Europe.

Simplicity

By only using top quality components, we have made the **Orion** reliable and easy to service. Simply remove the top cover to access batteries, electronics, motor and cables. Electronics and the motor

are protected from corrosion and water (splash protection) which safeguard the vital workings of the scooter preventing any unnecessary malfunction.

Features and Accessories

Easily adjust the angle of the tiller

Ergonomic steering
Prevents fatigue during long trips.

Hand brake
Ensures immediate braking if required.

Brake light
Heavy duty brake lighting warns people that the scooter is slowing down.

Features and Accessories
